EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

Specification:

Page 1, above "Field of the Invention", --This application is a Divisional application of 09/370,099 filed 08/06/1999, now USP 6,707,326.--

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the amendment filed 12/13/2004 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest each storage element is configured to enter a power save mode responsive to assertion of a power control signal as called for in claim 6, a clock phase module which selectively alters the phase of a clock signal provided to the flip flop responsive to a control signal indicative of the characteristic of the division ratio and a data output of the flip flop as called for in claim 8, placing any unused storage elements in a power save mode as called for in claim 11. Therefore, claims 6-9 and 11 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2816

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY P. CALLAHAN can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
